Online Account Management Tool – RAM

How It Works

Quickly and easily access your merchant account information, 24 hours a day through a single web-based application. Our online account management tool – RAM, enables you to view daily account information whenever you need it, view transaction details, statements, reports and settlements for quick and easy reconciliation.

Above all, our online account management tool – RAM, delivers the information you need to manage your business today and the historical analysis that could help you to improve your business for tomorrow.

Merchant Services

From EFTPOS terminals to online payment solutions, we have a range of payment options to suit your business needs.

These are suitable for any type of business, allowing you to accept payments in-store, on-the-go, and anytime, anywhere.

Benefits at a Glance

- Access your transaction log 24/7 – Log on anytime to check settlement totals and transaction data to help reduce reconciliation times
- No waiting for a statement – With online reporting, you have 24/7 access to view, manage and easily reconcile your daily transactions plus access reports by card type, terminal and overall daily totals – all online
- Real-time visibility of chargeback and fraud cases allows you to proactively review and fast track a resolution
