(1) Measures have been annualised where appropriate

(3) During the 2007 financial year the bank sold its credit card portfolio.

(6) Growth measures are calculated from the prior comparable period.

During the 2008 and 2009 financial year, former Pioneer and Home branches were converted to BOQ Corporate and Owner Managed Branches.

(tax chectes).

11) The increase in underlying profit excludes significant items.

The Bank is required to perform a trigger test at each balance date to determine whether the RePS, S1RPS or PEPS are dilutive. The RePS are dilutive at 28 February 2009, where as S1RPS and PEPS are both anti-dilutive at 28 February 2009.

<sup>(4)</sup> Normalised measures exclude significant, non-recurring and non-cash items. In the current financial year, the non-recurring items are Home integration and other due diligence costs of \$6.8m after tax, impairment primarily on property related equity investments of \$9.2m after tax, NSW distribution restructure costs of \$8.2m after tax and Head Office restructure costs of \$10.0m after tax. In the 2008 financial year the non-recurring items were Pioneer integration costs of \$0.5m after tax, Home integration costs of \$9.5m after tax, the gain on the Visa Initial Public Offering of \$6.3m after tax, and the negative impact of credit markets on high quality bonds and ineffectiveness of derivatives hedging the Home balance sheet on acquisition totalling \$6.1m after tax. In the 2007 financial year the significant item was the sale of the Bank's credit card portfolio which realised a pre-tax gain of \$41.6m an after tax gain of \$9.29.1m. The non-recurring items in 2007 were Bendigo due diligence costs of \$0.6m after tax and Pioneer integration costs of \$2.8m after tax. The non-cash items presented for all financial periods relate to the amortisation of customer contracts.

Balances obtained in the first half of 2008 upon acquisition of Home included gross loans and advances of \$2,669.2m, retail deposits of \$2,503.5m, collective and specific provisions totalling \$8.5m and total assets of \$3,133.7m. Balances obtained in 2007 upon acquisition of Pioneer included gross loans and advances of \$342.4m, retail deposits of \$456.3m, collective and specific provisions totalling \$1.0m and total assets of \$500.9m.

<sup>(7)</sup> RePS and S1RPS are classified as innovative hybrids for APRA reporting. PEPS are classified as non-innovative instruments for APRA reporting.

<sup>(8)</sup> At 31 August 2007, the Bank held an excess amount in respect of the APRA requirement for 50% basis points of risk weighted assets. This excess was released to retained earnings on 1 January 2008 to coincide with the introduction of Basel II. All capital requirements have been calculated under the Basel II standardised approach from 1 January 2008.

<sup>(10)</sup> During the 2007 financial year the movement in the general reserve for credit losses excluded reserves obtained upon acquisition of Pioneer and reserves released upon sale of the credit card portfolio (tax effected).

(1) Measures have been annualised where appropriate.

(3) During the 2007 financial year the bank sold its credit card portfolio.

(6) Growth measures are calculated from the prior comparable period.

(7) RePS and S1RPS are classified as innovative hybrids for APRA reporting. PEPS are classified as non-innovative instruments for APRA reporting.

During the 2008 and 2009 financial year, former Pioneer and Home branches were converted to BOQ Corporate and Owner Managed Branches.

(11) The increase in underlying profit excludes significant items.

<sup>&</sup>lt;sup>(2)</sup> The Bank is required to perform a trigger test at each balance date to determine whether the RePS, S1RPS or PEPS are dilutive. The RePS are dilutive at 28 February 2009, where as S1RPS and PEPS are both anti-dilutive at 28 February 2009.

<sup>4)</sup> Normalised measures exclude significant, non-recurring and non-cash items. In the current financial year, the non-recurring items are Home integration and other due diligence costs of \$6.8m after tax, impairment primarily on property related equity investments of \$9.2m after tax, NSW distribution restructure costs of \$8.2m after tax and Head Office restructure costs of \$10.0m after tax. In the 2008 financial year the non-recurring items were Pioneer integration costs of \$0.5m after tax, Home integration costs of \$9.9m after tax, the gain on the Visa Initial Public Offering of \$6.3m after tax, and the negative impact of credit markets on high quality bonds and ineffectiveness of derivatives hedging the Home balance sheet on acquisition totalling \$6.1m after tax. In the 2007 financial year the significant item was the sale of the Bank's credit card portfolio which realised a pre-tax gain of \$41.9m an after tax gain of \$29.1m. The non-recurring items in 2007 were Bendigo due diligence costs of \$0.6m after tax and Pioneer integration costs of \$2.8m after tax. The non-cash items presented for all financial periods relate to the amortisation of customer contracts.

Balances obtained in the first half of 2008 upon acquisition of Home included gross loans and advances of \$2,669.2m, retail deposits of \$2,503.5m, collective and specific provisions totalling \$8.5m and total assets of \$3,133.7m. Balances obtained in 2007 upon acquisition of Pioneer included gross loans and advances of \$342.4m, retail deposits of \$456.3m, collective and specific provisions totalling \$1.0m and total assets of \$500.9m.

<sup>(8)</sup> At 31 August 2007, the Bank held an excess amount in respect of the APRA requirement for 50% basis points of risk weighted assets. This excess was released to retained earnings on 1 January 2008 to coincide with the introduction of Basel II. All capital requirements have been calculated under the Basel II standardised approach from 1 January 2008.

<sup>10)</sup> During the 2007 financial year the movement in the general reserve for credit losses excluded reserves obtained upon acquisition of Pioneer and reserves released upon sale of the credit card portfolio (tax effected).

Measures have been annualised where appropriate

The Bank is required to perform a trigger test at each balance date to determine whether the RePS, S1RPS or PEPS are dilutive. The RePS are dilutive at 28 February 2009, where as S1RPS and PEPS are both anti-dilutive at 28 February 2009.

During the 2007 financial year the bank sold its credit card portfolio.

Normalised measures exclude significant, non-recurring and non-cash items. In the current financial year, the non-recurring items are Home integration and other due diligence costs of \$6.8m after tax, impairment primarily on property related equity investments of \$9.2m after tax, NSW distribution restructure costs of \$8.2m after tax and Head Office restructure costs of \$10.0m after tax. In the 2008 financial year the non-recurring items were Pioneer integration costs of \$0.5m after tax, Home integration costs of \$9.6m after tax, the gain on the Visa Initial Public Offering of \$6.3m after tax, and the negative impact of credit markets on high quality bonds and ineffectiveness of derivatives hedging the Home balance sheet on acquisition totalling \$6.1m after tax. In the 2007 financial year the significant item was the sale of the Bank's credit card portfolio which realised a pre-tax gain of \$41.6m an after tax gain of \$29.1m. The non-recurring items in 2007 were Bendigo due diligence costs of \$0.6m after tax and Pioneer integration costs of \$2.8m after tax. The non-cash items presented for all financial periods relate to the amortisation of customer contracts.

Balances obtained in the first half of 2008 upon acquisition of Home included gross loans and advances of \$2,669.2m, retail deposits of \$2,503.5m, collective and specific provisions totalling \$8.5m and total assets of \$3,133.7m. Balances obtained in 2007 upon acquisition of Pioneer included gross loans and advances of \$342.4m, retail deposits of \$456.3m, collective and specific provisions totalling \$1.0m and total assets of \$500.9m.

Growth measures are calculated from the prior comparable period.

RePS and S1RPS are classified as innovative hybrids for APRA reporting. PEPS are classified as non-innovative instruments for APRA reporting.

At 31 August 2007, the Bank held an excess amount in respect of the APRA requirement for 50% basis points of risk weighted assets. This excess was released to retained earnings on 1 January 2008 to coincide with the introduction of Basel II. All capital requirements have been calculated under the Basel II standardised approach from 1 January 2008.

During the 2008 and 2009 financial year, former Pioneer and Home branches were converted to BOQ Corporate and Owner Managed Branches.

During the 2007 financial year the movement in the general reserve for credit losses excluded reserves obtained upon acquisition of Pioneer and reserves released upon sale of the credit card portfolio

The increase in underlying profit excludes significant items

<sup>(1)</sup> Measures have been annualised where appropriate.

The Bank is required to perform a trigger test at each balance date to determine whether the RePS, S1RPS or PEPS are dilutive. The RePS are dilutive at 28 February 2009, where as S1RPS and PEPS are both anti-dilutive at 28 February 2009.

<sup>(3)</sup> During the 2007 financial year the bank sold its credit card portfolio.

Normalised measures exclude significant, non-recurring and non-cash items. In the current financial year, the non-recurring items are Home integration and other due diligence costs of \$6.8m after tax, impairment primarily on property related equity investments of \$9.2m after tax, NSW distribution restructure costs of \$8.2m after tax and Head Office restructure costs of \$10.0m after tax. In the 2008 financial year the non-recurring items were Pioneer integration costs of \$0.5m after tax, Home integration costs of \$9.6m after tax, the gain on the Visa Initial Public Offering of \$6.3m after tax, and the negative impact of credit markets on high quality bonds and ineffectiveness of derivatives hedging the Home balance sheet on acquisition totalling \$6.1m after tax. In the 2007 financial year the significant item was the sale of the Bank's credit card portfolio which realised a pre-tax gain of \$41.6m an after tax gain of \$29.1m. The non-recurring items in 2007 were Bendigo due diligence costs of \$0.6m after tax and Pioneer integration costs of \$2.8m after tax. The non-cash items presented for all financial periods relate to the amortisation of customer contracts.

<sup>(6)</sup> Balances obtained in the first half of 2008 upon acquisition of Home included gross loans and advances of \$2,669.2m, retail deposits of \$2,503.5m, collective and specific provisions totalling \$8.5m and total assets of \$3,133.7m. Balances obtained in 2007 upon acquisition of Pioneer included gross loans and advances of \$342.4m, retail deposits of \$456.3m, collective and specific provisions totalling \$1.0m and total assets of \$500.9m.

<sup>(6)</sup> Growth measures are calculated from the prior comparable period.

<sup>(7)</sup> RePS and S1RPS are classified as innovative hybrids for APRA reporting. PEPS are classified as non-innovative instruments for APRA reporting.

<sup>(8)</sup> At 31 August 2007, the Bank held an excess amount in respect of the APRA requirement for 50% basis points of risk weighted assets. This excess was released to retained earnings on 1 January 2008 to coincide with the introduction of Basel II. All capital requirements have been calculated under the Basel II standardised approach from 1 January 2008.

<sup>(9)</sup> During the 2008 and 2009 financial year, former Pioneer and Home branches were converted to BOQ Corporate and Owner Managed Branches.

<sup>(10)</sup> During the 2007 financial year the movement in the general reserve for credit losses excluded reserves obtained upon acquisition of Pioneer and reserves released upon sale of the credit card portfolio (tax effected).

<sup>(11)</sup> The increase in underlying profit excludes significant items.
