# BANK OF QUEENSLAND LIMITED, BASEL III PILLAR 3 DISCLOSURES

For the Quarter Ended 31 May 2021

## Introduction

Bank of Queensland (**Bank** or **BOQ**) is an Authorised Deposit-taking Institution (**ADI**) regulated by the Australian Prudential Regulation Authority (**APRA**) under the authority of the *Banking Act 1959*.

This report has been prepared by BOQ to meet its disclosure requirements set out in APRA's prudential standard *APS 330 'Public Disclosure'* (**APS 330**). It presents information on the Bank's capital adequacy, credit risk, securitisation exposures and liquidity coverage ratio.

In addition to this report, the Bank's main features of capital instruments are updated on an ongoing basis and are available at the Regulatory Disclosures section of the Bank's website at the following address: [https://www.boq.com.au/regulatory\\_disclosures](https://www.boq.com.au/regulatory_disclosures).

## Key points

The Bank's capital management strategy aims to ensure adequate capital levels are maintained to protect deposit holders. The Bank's capital is measured and managed in line with Prudential Standards issued by APRA. The capital management plan is updated annually and submitted to the Board for approval. The approval process is designed to ensure the plan is consistent with the overall business plan and for managing capital levels on an ongoing basis.

## Capital Ratios

The Board has set the Common Equity Tier 1 Capital target range to be between 9.0% and 9.5% and the Total Capital target range to be between 11.75% and 13.5%.

As at 31 May 2021:

- Common Equity Tier 1 Capital Ratio was 14.1% (10.0% as at 28 February 2021); and
- Total Capital Ratio was 18.0% (13.8% as at 28 February 2021).

## Capital Initiatives

The Bank raised AUD 1,350 million through the issue of ordinary shares in March 2021 and AUD 250 million through the issue of subordinated debt in April 2021.

## 5. Liquidity Coverage Ratio

APRA requires authorised deposit-taking institutions (**ADI**) to maintain a minimum Liquidity Coverage Ratio (**LCR**) of 100 per cent. The LCR requires an ADI to hold sufficient High Quality Liquid Assets (**HQLA1**) and alternative liquid assets (covered by the Committed Liquidity Facility (**CLF**)) to meet net cash outflows over a 30 day period, under a regulator defined liquidity stress scenario. BOQ manages its LCR on a daily basis with a buffer above the regulatory minimum in line with the BOQ prescribed risk appetite and management ranges.

BOQ maintains a portfolio of high quality, diversified liquid assets to facilitate balance sheet liquidity and meet internal and regulatory requirements. Liquid assets are comprised of HQLA1 (cash, Australian Semi-Government and Commonwealth Government securities) and alternative liquid assets covered by the CLF from the Reserve Bank of Australia (**RBA**). Assets eligible for the CLF include senior unsecured bank debt, covered bonds, asset backed securities, residential mortgage backed securities (**RMBS**) and internal RMBS that are eligible for repurchase with the RBA. BOQ has a stable, diversified and resilient deposit and funding base that mitigates the chance of a liquidity stress event across various funding market conditions. BOQ uses a range of funding instruments including customer deposits, short term and long term wholesale debt instruments, securitisation and covered bonds, with the objective of lengthening tenor, diversifying funding sources and increasing the stable funding base.

BOQ's average LCR over the May 2021 quarter was 158%, which is 8% higher than the previous February quarter average of 150%. Weighted Net Cash Outflows (**NCO**) were higher over the quarter due to increased retail deposits, unsecured wholesale funding and other contractual funding obligations. Alternative liquid assets decreased over the quarter due to the reduction in BOQ's 2021 CLF, which is consistent with the smaller CLF available to the banking system. These negative impacts to the LCR were offset by an increase to BOQ's undrawn Term Funding Facility and a higher balance of HQLA1. The following table presents detailed information on the average LCR composition for the two quarters. 92 data points were used in calculating the average figures for the May 2021 quarter and 90 data points were used in calculating the average figures for the February 2021 quarter.
